Core expertise

Planning and coordination

multi-team scheduling, progress monitoring, resource allocation, negotiation of intervention slots and stakeholder coordination.

EHS and regulatory compliance

occupational health and safety requirements, GMP environments, audits, inspections, worksite follow-up and compliance of technical interventions.

Risk assessment

HAZOP, ATEX, technical, psychosocial and workplace risks, prioritisation of preventive measures and action-plan monitoring.

Project support

CAPEX and OPEX follow-up, contractor coordination, commissioning and handover preparation, technical files and tender specifications.

Leadership

management of teams of up to 135 people, oversight of significant budgets, committee chairing, negotiation and handling of sensitive situations.

Documentation and tools

operational reports, compliance files, public tenders, Microsoft Office and SAP SD certification.

Professional profile

I am a senior EHS and regulatory compliance consultant with more than twenty years of experience in demanding environments, including pharmaceuticals, public institutions, education and defence. My work covers risk assessment, project and contractor coordination, audit preparation, compliance remediation and operational follow-up. I combine regulatory analysis with a practical approach focused on decisions that teams can implement.

Professional experience

Senior Consultant EHS and Risk Analysis

Polypeptide Group | Braine-l'Alleud, Belgium | 2022 to 2025

- Conducted HAZOP and ATEX risk assessments in a pharmaceutical environment operating under GMP requirements.
- Supported USP and DSP manufacturing projects and coordinated CAPEX and OPEX documentation.
- Monitored EHS compliance across projects, technical interventions and site activities.
- Applied Lean principles to improve compliance and operational efficiency.

Prevention and Safety Advisor Level II

Education authorities and schools | Uccle, Belgium | 2018 to present

- Conducts technical, psychosocial and workplace safety risk assessments.
- Supports compliance remediation, ongoing works and prevention action plans.
- Drafts public tenders, technical specifications and regulatory documentation.
- Chairs the Committee for Prevention and Protection at Work.

Managing Director and Independent Consultant

Private sector | Belgium | 2009 to 2018

- Managed operations and teams with a strong focus on EHS.
- Led business development, client and supplier relations, operational risk and quality management.
